. . . What Would You Do? Internet Safety & Supervision Hot Topics: Cyberbullying, Gaming, Al Questions

SLIDESMANIA.COM

• • •

What Would You Do?

Digital Dilemmas

Possible Scenarios

Your child comes home and says that pictures of them and another student have been "shipped" on a Instagram page.

A group chat your child was added to without their consent is receiving inappropriate photos of another student.

• • •

Your child has given their personal cell phone number to a stranger they met on instagram because this person is famous and is on a popular TV show.

Reflect:

Are you confident your child can recognize if an adult is masquerading as a child on social media?

Does your child know what information is ok to share and what is not ok to share on social media?

Can your child identify altered images and explain why some people alter images?

Does your child know what to do if they, or someone they know, is in trouble or participating in unsafe behavior on social media?

Are we modeling the behavior we hope to see from our children?

Tips from FCPS Digital Citizenship

- 1. Anticipate challenges
- 2. Keep it educational
- 3. Be goal-directed and intentional
- 4. Balance online and offline
- 5. Favor creation and collaboration
- 6. Use high quality media
- 7. Create routines
- 8. Be consistent with expectations
- 9. Use technology together

• • •

Internet Safety & Supervision

Monitoring vs. respecting privacy - what's the balance?

Privacy & Oversharing:

Encourage caution when sharing personal details or images online.

Misinformation & Online Scams:

Verify sources before believing or sharing information to avoid scams and misinformation.

Cyberbullying & Online

Harassment:

Recognize the signs of cyberbullying and know how to report or block harmful behavior.

Screen Time & Digital Well-Being:

Maintain a healthy balance between online and offline activities to support overall well-being.

Stranger Danger & Online

Predators:

Be cautious when interacting with strangers online and avoid meeting them in person.

Legal & Ethical Responsibilities:

Understand the legal implications of online actions, including age restrictions and digital footprints.

• • •

. . .

• • •

• • •

Children's Online Privacy Protection Act (COPPA):

Enforces regulations to protect the privacy of children under 13, restricting the collection of personal information without parental consent.

Social Media Platform Age

Restrictions:

Federal law and Virginia's compliance with age restrictions (13+) for platforms like Facebook, Instagram, and TikTok, ensuring protections for minors online.

Virginia's Anti-Cyberbullying

Law:

Virginia law that addresses cyberbullying by holding perpetrators accountable and ensuring schools have anti-bullying policies in place, both in-person and online.

• • •

Online Harassment Laws (Virginia Code § 18.2-60.3):

Virginia law specifically criminalizes online harassment and stalking, offering legal protection for individuals experiencing cyberstalking or online threats.

Virginia's "Sexting" and Obscenity

Laws:

Virginia law criminalizes the distribution or possession of explicit images of minors, including sexting, even if the minors involved are sharing images of themselves.

. . .

Things to think about....

Online Risks

- Conversations with strangers
- Exposure to inappropriate content
- **Identity Theft/Oversharing**

5K

Communication

How do you talk about tech with your child? How often do you monitor your child's activities?

5K

Family Technology Agreements

Many resources, such as The Smart Talk, for safe device usage have mockups of technology agreements to start a conversation with your family.

Digital Citizenship Reinforcement

When using a non-FCPS device at home, parents have the choice of what to allow or disallow. Students should use their digital citizenship skills to continue behaving responsibly on their personal devices.

<u>COPPA</u>: Children's Online Privacy Protection Act of 1993

What is it?

This act/rule prevents companies from using unfair or deceptive means to collect, use, and/or disclose personal information from and about children (13 and under) on the internet.

578

1 K

5K

What does it mean?

Parents have the ultimate right and responsibility of controlling the release of private information to apps and websites by updating privacy settings OR disallowing children to create accounts.

578

K

K

How can we make it effective?

Create the accounts with your child and make sure you have given the app permission and set up the privacy settings. Most companies do not allow children to create accounts unless they are 13!

578

1

5K

What else can I do?

Be aware of the apps your child is using. Read the <u>Terms of Service</u> to find out minimum age requirements. Read the COPPA <u>FAO</u>.

Internet Safety Hot Topics

How to stay safe while using our devices and going online.

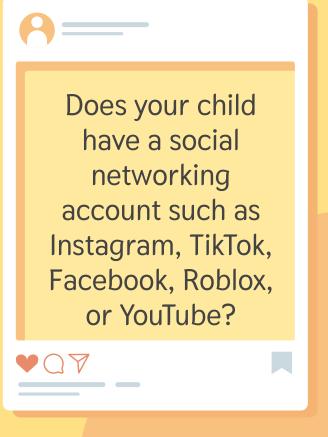

Can you answer these questions?

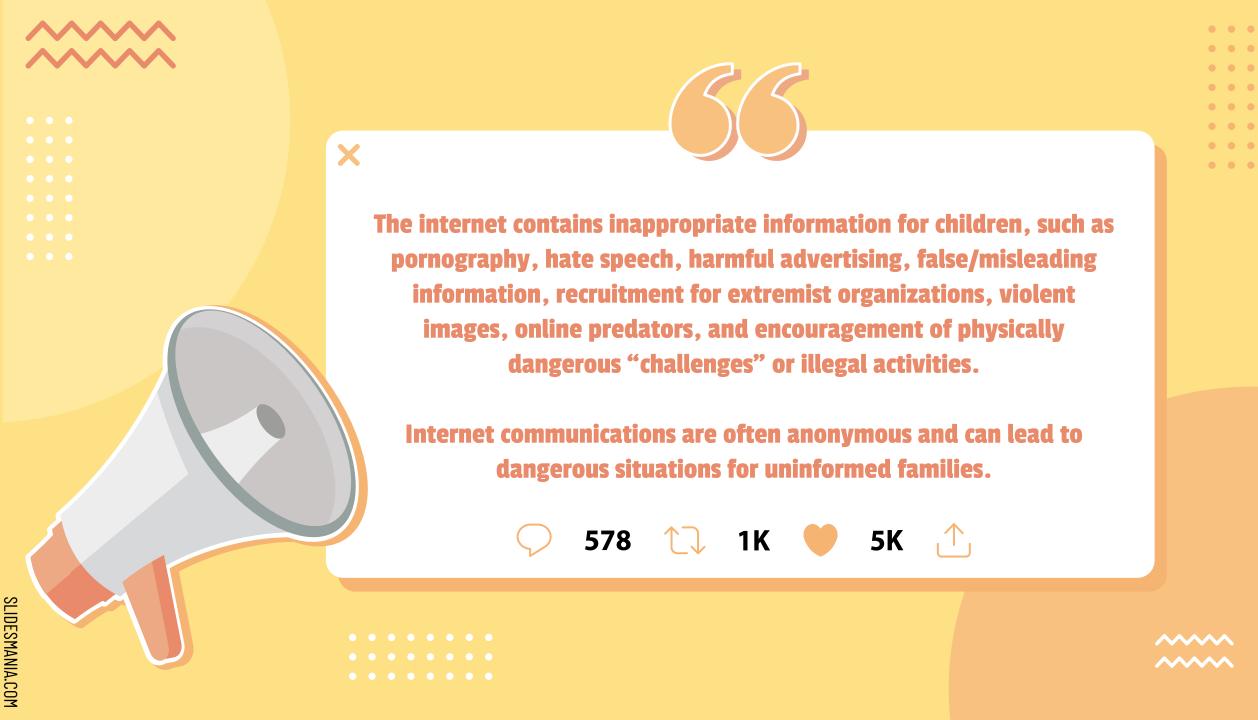

• • •

FCPS Students Rights and Responsibilities

Bullying

- Any aggressive and unwanted behavior that is intended to harm, intimidate, or humiliate the victim/target
- Involves a real or perceived power imbalance between the aggressor or aggressors and victim/target
- Occurs repeatedly over time or causes severe emotional trauma

Cyberbullying

- Bullying that takes place using electronic technology
- Examples:
 - Mean text messages
 - Nasty or threatening emails
 - Rumors sent or posted
 - Embarrassing pictures/videos
 - Fake profiles

What your child has been taught to do:

Children who are approached by a stranger online should...

Tell a parent or trusted adult (teacher, school counselor, religious or community leader, etc.)

Children who are cyberbullied should...

Tell a parent or trusted adult, not respond to the message, save the message for evidence, and block the offender or set up a new account

What you should do:

Parents of children who are approached by a stranger online should...

Evaluate the message for danger, help the child block the stranger or set up a new account, notify appropriate authorities if message is extremely concerning or has been escalating

Parents of cyberbullied children should...

If school-related - <u>notify school officials</u>, if not school related - notify local law enforcement, save the message for evidence, and block the offender or set up a new account

Don't give out too much information!

^

0 0 0

Set up new accounts for your child

Do not include or share personal information

Photos and videos should never be shared by children (or publicly) online

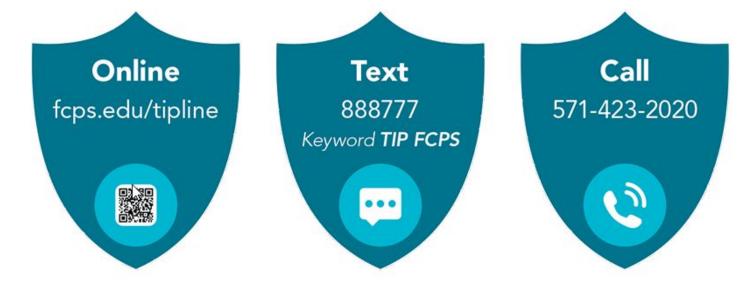

As part of Fairfax County Public Schools' continuing efforts to maintain safe schools, a confidential and anonymous Tipline is available to students, parents, staff, and other members of the FCPS community.

School administrators encourage students, staff and community members to report school safety issues, such as threats, unsafe or dangerous situations, illegal drug activity, theft, gang activity, existence of weapons, vandalism and concerns about student wellness. Tipline users may identify themselves or remain anonymous.

You may submit your anonymous tips using any of the following methods:

Questions

Any questions for us?

Twitch (recommended for 15+)

Twitch is a social video service where a community of millions discusses Xbox One, PlayStation 4, and PC games. It also features videos and channel content based on hobbies and other topics. Requires users to be 13 years old.

Parents can restrict kids' contact with other users, such as blocking private chat-room invitations. Users can be invisible when observing a chat and see the activity of others Twitch users unless the user turns off that setting.

Children may encounter the following when dropping in on conversations happening on Twitch:

- bad language
- drug and alcohol references
- product promotions for goods and services
- streaming video of games with shooting and violence and people praising that violence

SLIDESMANIA.COM

Common Sense Media Review

Ultimate Guide

Discord (recommended for 13+)

A chat app for gamers designed to help gamers talk to each other in real time as they game. Discord requires users to be 13 years old. While the app doesn't generate any iffy content, gamers may discuss mature games that include:

- sex
- violence
- substances

With location services on, users nearby can find you and invite you to chat. Users can also join Stage channels where up to 1,000 users are listening and potentially participating in a live audio broadcast.

Common Sense Media Review
Ultimate Guide

TikTok (recommended for 15+)

TikTok is a social network for sharing user-generated videos, most of which feature music and sound effects. Users can also remix others' work and browse content created by other users, including famous recording artists. Users must be 13 or older. If you are under age 18, you may only use the Services with the consent of your parent or legal guardian.

Parents can activate Family Safety mode to: link their own account to their kids', set time limits, place kids' accounts on Restricted mode, and disable direct messages.

Parents can also control who can leave comments, turn off search, and stop users from seeing which videos their children have liked.

If a kid unpairs the account, the parent gets an alert.

Common Sense Media Review Ultimate Guide

Snapchat (recommended for 13+)

Snapchat is a popular messaging app that allows users to exchange user-generated photos, texts, videos, and calls -- both audio and video - that go "away" within a few minutes to 24 hours. No one under 13 is allowed to create an account or use the Services. If you are under 18, you may only use the Services with the prior consent of your parent or legal guardian.

Snap Maps - if users share their location, you can see friends on a map and see Snapchat Stories from other users in various locations

Memories - this section allows teens to save posts behind a passcode so others can't access them.

Discover - a feature that has curated content from media outlets and often feature harsh language, secual content, violence and ads and there is no opt out

Snapstreaks - incentivizes trading snaps with people every day to earn charms

Spotlight - scrollable feed of short videos, and because kids can make money, they may be encouraged to post riskier stuff

Common Sense Media Review
Ultimate Guide

SLIDESMANIA.COM

Kik (recommended for 17+)

App based alternative to standard texting as well as social networking app. Users must be 13 to create an account.

Features include:

- Video
- Sketch
- Bot search
- Friend or group code scanning

KikCode Function encourages kids to connect themselves to commercial brands. Connects to many 3rd party sites. Kik is a popular app for predators to groom children. Beware.

Common Sense Media Review

Instagram (recommended for 15+)

All in one social app for sharing, shopping and scrolling. Very popular. You must be at least 13 to create an account.

- Instantly enhances photos, and videos with cool effects
- Can share Instagram posts to other platforms
- Prohibits nudes, but does not prohibit the portrayal of violence, swearing or drugs. Users can flag photos for review if inappropriate
- Photos shared are public and may have location information unless privacy settings are adjusted.
- Direct Messages
- Green status dot shows if you are active can turn this off
- Vanish mode lets friends send messages that disappear after you leave the chat
- Can subscribe to others video collections
- Connects to Tinder can disable
- Reels similar to TikTok short style videos

SLIDESMANIA.COM

Roblox (recommended for 15+)

Users can create games and play games others have created. There is a social component where users can add friends to chat with and even "follow" them throughout various games. You do not have to be friends with someone to chat with them and many games have a public chat going. There are human moderators that do their best to keep everything clean and safe. There are chat filters.

This app offers in-app purchases.

One of the friendlier apps for children, but users still must be 13 or older to sign up.
